PROFESSIONAL SUMMARY

Motivated Java Developer with hands-on internship experience building full-stack web applications using Core Java, Spring Boot, Angular, and SQL databases. Solid foundation in OOP, RESTful API design, and relational database modeling. Delivered end-to-end projects including a Java-based Pharmacy Management System and a Python NLP text-summarization tool. Certified in Java Programming (NIIT) and Java DSA (Udemy). Fast learner with strong analytical and problem-solving skills, seeking to contribute as a Junior Java Developer.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL | Frameworks: Spring Boot, Angular, AngularJS, REST APIs, spaCy (NLP)

Databases: MySQL, SQL Server, Oracle SQL | Cloud: AWS, Azure | Tools: HTML, CSS, Git

Concepts: OOP, RESTful API Development, Data Structures & Algorithms, Agile/Scrum, SDLC

INTERNSHIP EXPERIENCE

Full Stack Java Web Developer

Feb 2023 – Mar 2023

BB Leads, Mangaluru, India

- Built an end-to-end Pharmacy Management System using Spring Boot and AngularJS, covering product catalog, cart, and checkout flows.
- Developed and integrated RESTful APIs for product inventory, billing, and user-management modules.
- Collaborated with a cross-functional team following Agile sprint methodology, participating in daily stand-ups and sprint reviews.

Full Stack Java Developer

Feb 2019 – Sep 2019

IITC, Mangaluru, India

- Gained in-depth, applied experience with the Angular framework to build scalable, reliable front-end applications.
- Participated in the full Software Development Life Cycle (SDLC): design, coding, testing, and deployment.
- Strengthened Core Java and OOP fundamentals under the mentorship of senior developers.

PROJECTS

Pharmacy Mart — Java Full-Stack E-Commerce Platform

- Designed and built an e-commerce website for pharmacy products using Spring Boot, AngularJS, and MySQL.
- Implemented product listing, shopping cart, and order-management features with REST API integration.

Tools: HTML, CSS, JavaScript, AngularJS, Spring Boot, MySQL

Smart Summarize — Python NLP Text Summarization Tool

- Built a text and document summarization tool using the spaCy NLP library, capable of handling large input documents.

Tools: Python, spaCy, CSV, HTML

Fishery Management System — Java Backend Application

- Developed an application enabling fishers to record and manage fish-catch and inventory data.
- Designed a relational database schema in Oracle SQL and implemented full CRUD operations via a Java backend.

Tools: Java, Oracle SQL, HTML, CSS

EDUCATION

B.E. – Computer Science & Engineering

Aug 2020 – Aug 2023

Sahyadri College of Engineering and Management, Karnataka, India

Diploma – Computer Science & Engineering

Aug 2016 – Aug 2020

Vivekananda Polytechnic, Puttur, Karnataka, India

CERTIFICATIONS

Java Programming — NIIT (2020) | Java Data Structures & Algorithms — Udemy (2024)

Amazon Web Services (AWS) — Udemy (2024) | Associate Java Programming — Udemy (2024)
